

Cooperative Preschools – Ages 3-5 years & Pre-Kindergarten

“A report from the American Academy of Pediatrics (AAP) says free and unstructured play is healthy and - in fact - essential for helping children reach important social, emotional, and cognitive developmental milestones as well as helping them manage stress and become resilient.”

We offer this and MORE, such as...

At monthly class meetings you will discuss preschool business and meet with your parent education instructor, who will present the **latest research on child development** and other topics relevant to parenting a preschooler. You will have the chance to **network with other parents** as you and your child become vital contributors and participants in a learning community. Each preschool is managed by a parent volunteer board, providing the opportunity for **leadership training** and for honing small business skills.

Give your child and yourself an incomparable co-op learning experience!

Open Registration for Co-op Preschools for Fall 2019 begins February 4, 2019.

(Priority registration for BC Second Year Toddlers and students from other Parent Ed classes begins January 22, 2019.)
