Join us today!

Classes are designed to meet the needs of infants and their families. Enjoy early enrichment experiences with your child as you observe and learn about their cognitive, social- emotional, language and physical development. A team that specializes in infant development, nutrition and music leads each class. Our infant programs are influenced by the philosophy of Resources for Infant Educators (RIE)®, as developed by Magda Gerber.

Each class is offered for 2 hours, one day/week.

Bellevue College's Parent Education Program has been a trusted program on the Eastside for over 50 years.
